

Aspris Woodview School

Coming soon

Aspris Woodview School

We are delighted to introduce you to Aspris Woodview School.

Located in the London Borough of Bromley on the Kent border, Aspris Woodview School will provide specialist education services to support young people aged 7 to 19 years with autism.

Our specialist services

- A broadly mainstream curriculum with highly individualised learning programmes in small classrooms
- The development of functional skills and national accredited qualifications are available
- Modern and well-equipped facilities, including a photography room, kiln room and performing arts section
- A large playground and extensive private woodlands for outdoor education
- A dedicated and experienced in-house therapy team
- Preparation for further/higher education and employment opportunities
- A wide range of planned activities in the local community
- Support strategies for self-management of anxieties and independence
- Regular communication with parents, carers and Local Authorities
- Located just inside the M25, benefitting from excellent transport links

Part of one of the leading specialist education providers

We are proud to be part of Aspris Children's Services, one of the UK's leading specialist education providers. We form part of a network of schools sharing best practice and learning from each other's successes.

As part of Aspris Children's Services, we also have access to a wide variety of additional services across the UK. This enables students to make smooth transitions to associated colleges when they leave us. We benefit from a comprehensive and continually updated range of training, expert information and advice for educating and supporting children with autism. Our new school will be overseen by an Operations Director, Health and Safety Advisor and Quality Lead, ensuring a consistent and robust approach of the highest standards.

Small classes with intensive support

Small class sizes enable us to support each student to achieve their true potential. Classes are much smaller than mainstream schools and typically have no more than eight pupils. This means that our young people have substantial time with staff members, who are able to provide the more intensive support that helps them to quickly achieve and make progress. We have high staff to student ratios and some of our young people are supported on a one-to-one basis. The classes also make possible the highly personalised learning we deliver, tailored to meet the individual needs of each student.

Personalised education and therapeutic support

Aspris Woodview School will deliver specialised and highly individualised education and support, that transforms the lives of our young people and their families. Our extensively experienced staff team will work with passion and dedication to empower young people to become successful learners, responsible citizens and confident individuals.

We will continuously review our skilfully tailored education and therapeutic support, to ensure we meet each individual's developing needs and guide students to develop the educational, social and life skills for a happy and fulfilling future. We place a strong emphasis on social and emotional learning, which together with holistic therapy integrated into daily teaching, will see students grow as people and build confidence and resilience. Our curriculum is also designed along three separate pathways to engage and inspire young people and best prepare them for positive transitions to employment, apprenticeships or further learning.
