

Xello Careers Programme

Xello is an engaging online program that prepares students for post-secondary success in academics, careers and life. The program puts students at the centre of their career and future planning experience. It helps them build self-knowledge, explore their options, create a plan, and develop the 21st-century skills needed to thrive in the world of work.

It's important for students to take ownership in planning for their future. But the caring adults in their life play an essential supporting role. Use your Xello Family account to see your child's work in future-readiness. Use this opportunity to discuss and support their future goals and plans.

Take a look at [this guide](#) to help get started with Xello

Here at Queenswood School, all of our learners have their own Xello account. We encourage our learners to access the programme from home and to share their aspirations and ambitions for the future with their parents and carers.

If you would like for your child to be able to access the programme from home then they can either request their log in information in person from Bee during their Careers Lesson, or you can email barbaracorrick@aspriscs.co.uk to request log in information.
